Certificate #9548-C

RECEIVED

OCT 25 2010

PSC SC
CLERK'S OFFICE

Dear Public Service Commission,

On June 15, 2009 I asked the Commission for an extension of my certificate for one (1) year due to the downturn in the economy. Business was very little and the company could not continue to operate under these conditions. I was very thankful that the Commission granted my company the extension.

In July of 2010, the company's officers held a meeting and wanted to resume operations. They discussed the issues of the economy and the housing market, which was still at a downturn, and decided that reopening the company would not be profitable.

All of us at Liberty Moving and Storage Corporation have worked very hard for the past fifteen (15) years to build a very reputable company and to serve the public in the utmost professional manner.

I have spoken to Mr. George Parker at O.R.S. several times about our situation. The reason for this letter to the Commission is to ask for an additional extension until June 15, 2011.

In 1994 I came before the Commission about six times for a certificate and had a few oppositions. I continued paying attorney fees and having Senator John Felder speak on my behalf to the Commission. After spending a lot of time and money, and the time of the Commissioners, finally was granted a certificate. All of us at Liberty Moving and Storage Corporation will continue serving the public in a professional and honest manner.

We ask and pray that the South Carolina Public Service Commission will grant our company this opportunity.

Very Sincerely,

Ray Collins, *President*

Liberty Moving and Storage Corp.
